

Hosted Virtual Desktop v2

ThinkGrid's new Hosted Virtual desktop technology is an innovative new method for delivering desktops to end users. Hosted Virtual Desktops offer numerous advantages over other forms of desktop computing in terms of cost savings, security, resilience, flexibility and reduced management.....

Anywhere, Any Device

Connect to your Hosted Virtual Desktop anywhere in the world, via PC, Laptop, Thin Client or IPAD

Windows 7 Experience

Take advantage of Microsoft's latest technology without the costs

The idea behind cloud computing and hosted virtual desktops is that they provide the same features, tools and ways of working as traditional IT, but with a different method of accessing them. Whilst the services look and feel familiar, behind the scenes they bring a raft of benefits, such as cost savings, disaster recovery, business continuity, remote working and improving staff productivity

Key Features

- Windows 7 environment
- Full virtual machine desktop
- Fully customizable
- HD Video acceleration
- **Install any Windows Application**
- Fully managed

Rich Media and Flash

Watch movies in high-definition, as well as other rich media from your virtual desktop

Key Benefits

Financially Economical

Save on CapEx and improve cash flow by purchasing IT services on a PAYG model. Save money on the soft, or 'hidden' cost of IT by taking advantage of our fully managed services

Add resources on -demand

Only pay for the IT resources you need right now by scaling resources up and down as you need them, on demand

Go Green

Use in conjunction with Thin Clients and cut your IT power consumption by up to 90%!

Backup and Recovery

Ensure the security of your data by taking advantage of Hosted Virtual Desktops state of the art backup and recovery procedures

Improve productivity

Improve your workforce's productivity allowing them to share applications, and collaborate on company data more effectively

Remote Working

Access your files, folders, emails, applications and entire corporate network wherever you are in the world

Service Level Guarantee

Ensure your services are managed to be available 99.99% of the time, incorporated in the service

Disaster Recovery

Take advantage of Hosted Virtual Desktop's enterprise class redundancy features ensuring your IT Services are always available

"It's so easy - we just click on an icon and files appear on the desktop in front of us"
